

The PRISim Suite® InstalledTrainer PRO is a judgement evaluation and force options training system, loaded with features to meet your training needs. By design, it creates a safe, effective and realistic learning environment for law enforcement, military and security professionals.

PRISim Suite InstalledTrainer PRO places participants in an interactive environment where they must overcome potentially deadly mistakes, indecision, sudden fear, partial understanding, blind-side surprise, eye-blink response and life or death choices.

PRISim Suite is a training tool that promotes positive learning and skills that are difficult to recreate by other training methods.

PRISim Suite InstalledTrainer PRO
